Section 1
Consent for sharing concept notes openly
1. We want to be transparent about the decisions we’ve made. For this scheme, where you have given your consent, we will make your name, project title(s), and details of proposal(s) for successful and unsuccessful concept notes openly available on our publicly accessible website.

This information is your personal data and you are ultimately in control of it. If you are happy for us to share the following sections of your concept note as noted above, please check the boxes below. Please note this is entirely optional; it is up to you which boxes are checked. We will not take your willingness to share these details into account when making the decision on inviting full applications.

Potential further uses of your personal data and your consent

Please also note that if you are invited to submit a full application, we may contact you subsequently to ask your consent to share some details of the full application online. Once all decisions have been communicated to applicants, we will ask your consent to share a short summary of why you have been successful or not. Again, it will be entirely optional whether or not you provide consent for this. The legal basis for this processing of these personal data noted above would be your consent and the Wellcome Trust will be the “data controller”. This and all other information will be stored and used, in addition to the details noted above, as per the Wellcome Grants Privacy Statement [https://wellcome.ac.uk/sites/default/files/wellcome-grantsprivacy-confidentiality-statement-20181207.pdf](https://wellcome.ac.uk/sites/default/files/wellcome-grantsprivacy-confidentiality-statement-20181207.pdf).
